OPERATIONS

“On 29 March 1948, this unit received Federal recognition as the 102nd Communications Squadron (Wing), with the mission to install, maintain and operate communications facilities for the 52nd Fighter Wing, New York Air National Guard. The unit was located at the State Armory, White Plains, New York. Since that time the 274th has grown, moved, developed traditions and outstanding esprit-de-corps, and established a reputation for “can-do” which has resulted in accomplishment of its mission in an outstanding manner as well as continuous accolades for its leadership in compiling a record of “firsts” with the active military establishment and guard.
