NICKNAME

OPERATIONS

The 116th Logistics Support Flight (LSF) is the smallest unit of the 116th Logistics Group, comprised of 27 total personnel, performing as the hub for all aircraft maintenance activities. The LSF function is to support other 116th units by providing management of aircraft maintenance through our Maintenance Operations Center (MOC), Plans, Scheduling, and Documentation (PS&D), Comprehensive Engine Management (CEMS), and Maintenance Plans and Programs. Responsibilities are to monitor and coordinate the day to day maintenance production effort for 426 full-time and 701 total Maintenance personnel for 9 B-1Bs assigned to the 116th Bomb Wing.

Through perseverance and determination of present and past leadership, this section has grown in manpower and in responsibilities to the Wing. Prior to 1996, the leadership consisted of a full-time Maintenance Superintendent and a traditional guardsman commander. Along with the move to Robins AFB and the conversion to the B-1B the commander became a full-time position in addition to the superintendent.

The 116LSF has supported and participated in recent Wing deployments such as FENCING BRAVE and AMALGAM WARRIOR exercises at Eielson AFB, Alaska, August and November 1998, several OREs at the Combat Readiness Training Center (CRTC), Savannah, Georgia; Fighter Weapons School support, Nellis AFB, Nevada, June 1999, Gulfport CRTC, Mississippi, June 2000, and BARON FLAG exercise, Nordholz, Germany, July 2000.
