## **OPERATIONS**

Another important event occurred in August when the Combat Support Squadron took 100 people to Volk Field for our first Summer Camp there since 1960. It was a much-needed opportunity for the Squadron to function as a unit and develop an organizational identity. The Texas Plan Summer Camps were productive but they also allow. On January 16, 1970, the first 128th deployment under an enlarged CREEK PARTY program left for Germany. The program was expanded from four to six daily tanker sorties and the officer and enlisted strength was also increased.
