NICKNAME

OPERATIONS

The 140th Maintenance Operations Squadron ensures the health of a fleet of more than 20 F-16C. The flight provides extensive maintenance analysis data, maintains oversight of wing plans, training, scheduling, and forms documentation for the entire group. This work center also serves as the nerve center for all maintenance actions through the Maintenance Operations Center. Several other critical functions include the collection, tracking and forecasting of engine data for over 20 engines.

Air Force Order of Battle
