## NICKNAME

## OPERATIONS

On July 1, 1979, the 154th Supply Squadron was deactivated and the 154th Resource

Management Squadron was activated. Under the control of the 154th Resource Management Squadron were Base Supply; Accounting & Finance; Budget, Pay, and Cost Analysis; Traffic Management; Vehicle Operations and Maintenance, and Base Contracting.

Supply was F-102 NORS-free (Not Operational Ready, Supply) until April 13, 1969 with a record 1,266 days (nearly 3 and 1/2 years) behind them. Finally aircraft maintenance needed something and supply couldn't deliver. Was it something like a wing or an engine? No, it was a butterfly valve. Great credit goes to the tremendous efforts to achieve this record, and well within the 154th Supply Squadron motto: "One team, one mission - keep 'em flying".
