Decorations

EMBLEM

On a disc Argent (Silver Gray), two wrenches in saltire Or, detailed Tenné, in base between an arc of four six-pointed mullets Sable, two and two, a flight symbol palewise Azure; all within a narrow border Red. Attached above the disc, a Gray scroll edged with a narrow Red border and inscribed "TACTICAL RESILIENCE" in Red letters. Attached below the disc, a Gray scroll edged with a narrow Red border and inscribed "803D AIRCRAFT MAINTENANCE SQ" in Red letters. **SIGNIFICANCE:** Ultramarine blue and Air Force yellow are the Air Force colors. Blue alludes to the sky, the primary theater of Air Force operations. Yellow refers to the sun and the excellence required of Air Force personnel. Gray suggests the standard military aircraft color, which is the foundational resource that leads the Air Force in flying, flight and winning. The wrenches symbolize quality maintenance, which is key to providing safe and reliable resources to combatant commanders. The delta denotes the primary tool for delivering airpower--the military aircraft. The six-pointed stars, two on each side of the delta, signify the initial driving force of the first weapon system the maintainers of the unit work on--six-bladed turbo-propellers.
