

938 ENGINEERING INSTALLATION SQUADRON

MISSION

The 938th EIS has 315 military and civilian personnel and is one of three active duty squadrons responsible for United States communications installations worldwide. It has a mission in virtually every country where United States military forces serve. The squadron also supports and advises five Air National Guard units around the country. Within the squadron, over 240 members Engineer, Install, and Sustain command, control, communications and intelligence systems to achieve the Air Force's 21st Century vision of Global Engagement. Another 75 dedicated personnel form numerous squadron sections to accomplish support activities needed to keep the installation teams on the road.
