Approved, 15 Sep 1997

MOTTO

OPERATIONS

Combat in Burma and China, Apr 1944-Sep 1945. Teams on duty with British, Chinese, and American ground forces, directing fighter-bomber planes on missions in air support for the ground forces they served. Participated in an assault landing on 17 May 1944 in the battle for Myitkyina, Burma.

The mission of the Tactical Air Communications Squadron was to provide communication between ground commanders and combat aircraft. When combat aircraft reached its assigned patrol area, the pilot was told to stand by for instructions. The ground commander selected the target which he wanted attacked, and transmitted this information to a team of USAAF personnel with whom he was in constant touch. This team, the Tactical Air Communications Squadron, who had previously familiarized themselves with the terrain by flying over it in liaison type aircraft, was thoroughly acquainted with the problem faced by the pilot and had the additional advantage of being able to talk to him in language he understood. The Tactical Air Communications Squadron contacted the fighter pilots by radio and talked them into the target with the use of gridded photographs, maps, and their specialized knowledge of the terrain. Panels and other signals at the front lines were also used.

A ceremony moving the 1st Air Support Operations Group from under 12th Air Force into the hands of 13th Air Force occurred 1 Oct 2008 at Fort Lewis, Wash. Lt. Gen. Chip Utterback, commander of 13th Air Force, assumed control of the 1st ASOG and its subordinate units at the ceremony, nearly tripling the group's assigned forces to 400 personnel in the process. "We are focused on today's war with folks from all over our command deeply engaged in today's battle," General Utterback said. "We are organizing to bring the speed and flexibility that comes with airpower to the Pacific." With the move from Air Combat Command to Pacific Air Forces, the 1st ASOG assumes three new squadrons, in addition to two previously assigned squadrons. The new squadrons include: the 3rd Air Support Operations Squadron at Fort Wainwright, Alaska; the 25th Air Support Operations Squadron at Wheeler Army Air Field, Hawaii; and the 16th Air Support Operations Squadron at Fort Richardson, Alaska. The 1st ASOG will continue to command two subordinate squadrons: the 1st Weather Squadron and the 5th Air Support Operations Squadron, both at Fort Lewis.
