Armed Forces Expeditionary Streamers

Decorations

EMBLEM

Approved, 16 Mar 1959

EMBLEM SIGNIFICANCE

The divided background of blue and yellow signifies the group's meteorological duties are carried on day and night. The triangle with its proverbial stability indicates firmness of purpose and is symbolic of the three-way meteorological association of land, sea, and air. The circle indicates continuous endeavor, and the fleur-de-lis commemorates the first participation of a United States Army weather service in combat in France during World War I. The emblem bears the official Air

Force colors of ultramarine blue and golden yellow.
