Service Streamers

Campaign Streamers

Armed Forces Expeditionary Streamers

Decorations

EMBLEM

The three stars represent the three branches within the organization: administration, operations, and maintenance. The large red lightning bolt on the field of yellow signifies the professional excellence of the squadron personnel in providing rapid and reliable communications support. The double axe, set on a field of ultramarine blue, has a dual significance. It is a symbol of the ancient Minoan civilization of Crete and well represents the squadron's geographical location. It also symbolizes the 2115th Communications Squadron's TROPO Microwave Antenna. The four small yellow lightning bolts represent the squadron's communications electronics support to the four comers of the world.
