OPERATIONS

26 Aug 1948, The 3310th Technical Training Wing (TTW) was established and took over management of Scott AFB from the 3505th Army Air Forces Base Unit. Under the 3310 TTW were four groups; 3310th Air Base Group, 3310th Technical Training Group, 3310th Maintenance and Supply Group, and 3310th Station Hospital. Directly under the Wing Commander are the Executive Officer, Public Information Officer, Inspector General, Air Inspector, Air Provost Marshal and the Hq. and Hq. Sq., consisting of the wing staff and the personnel.

Definite advantages due to the reorganization accrued to maintenance and supply in that all personnel connected with such activities were grouped in separate squadrons directly under the command jurisdiction of the 3310th Maintenance and Supply Group. Whereas such personnel

formerly were scattered in various squadrons throughout the field, they now come under one group commander in unified organizations readily accessible by reason of their physical proximity. This arrangement greatly facilitates proper discipline, enables more precise selections for promotions and brings about a smoother attainment of the mission of the group.
