

## 7 COMPONENT MAINTENANCE SQUADRON

### **MISSION**

The 7 Component Maintenance Squadron provides a highly qualified work force that supports the wing's B-1B bomber and tenant AMC wings C-130J's. The unit performs on-/off-equipment maintenance on offensive and defensive avionics units, fuels, egress and electrical-environmental systems. The squadron also manages the Air Forces only active duty F-101 engine Consolidated Repair Facility.

## **EMBLEM**

7 Avionics Maintenance Squadron patch

7 Component Maintenance Squadron emblem: On a disc Celeste, below an arc of three mullets Argent, as many lightning flashes in pile. At base a gear wheel in perspective fesswise Silver Gray, detailed Azure, enfiled at the intersection of the lightning flashes which extend below, one in pale and two in saltire Or, garnished Gules, all within a narrow border of the fourth. Attached below the disc, a Light Blue scroll edged with a narrow Blue border and inscribed "7 COMPONENT MAINTENANCE SQ" in Blue letters. **SIGNIFICANCE:** Blue and yellow are the Air Force colors. Blue alludes to the sky, the primary theater of Air Force operations. Yellow refers to the sun and the excellence required of Air Force personnel. The gear wheel indicates the pride in the maintenance mission. The three lightning flashes signify the three components the unit provides in support of that mission. The convergence of those lightning flashes promotes the "one team, one focus" attitude of the unit.
