

PACIFIC COMMUNICATIONS AREA

Continental Communications Division headquartered at Griffiss AFB, New York, and a new Engineering Installation Center with its headquarters at Oklahoma City AFS, Oklahoma. At the same time, the ground communications-electronics installation equipment, or scheme warehouse, and the scheme management functions were consolidated at Tinker AFB, Oklahoma, while the 1815th Test Squadron moved from Scott AFB, Illinois, to Wright-Patterson AFB, Ohio. The 1931st Communications Group in Alaska was realigned from Headquarters AFCC to the Continental Communications Division. As part of the reorganization, the Strategic Communications Area, the Tactical Communications Area, the European Communications Area, and the Pacific Communications Area were all redesignated divisions to conform to the new structure better suited to meet the envisioned needs, advanced technology, and complexity of the eighties.
