

SPACE LOGISTICS GROUP

Space Logistics Group:

The Space Logistics Group is a geographically separated unit at Peterson Air Force Base, Colo., with 550 people and a \$500 million annual budget. It sustains and modifies worldwide United States Air Force/Department of Defense space weapon systems to include terrestrial and space weather, global positioning systems, launch range control, satellite command and control, secure communications and early missile warning. It is the center focal point for logistics, maintenance, supply, sustaining engineering and the Space Logistics Readiness Center. The group sustains and improves worldwide space ground systems in partnership with warfighters and wholesale level suppliers for the Space and Missile Systems Center.
