

# 151 SERVICES FLIGHT

## **MISSION**

The mission of the 151 Services Flight is to contribute to the readiness of Utah Air National Guard personnel and provide support to the community, state and nation through food service, lodging, mortuary affairs, and morale welfare and recreation programs.

The 151 Services Flight is a 30 member unit where each member is assigned to one of the main areas of responsibility: food services, lodging, field laundry, mortuary affairs or fitness & recreation. At the heart of the services career field is the Air Force Prime RIBS program. The Prime RIBS program deals with the training required to support basic human needs anywhere in the world on a moment's notice. As a dual role, unit members are prepared to respond to any peacetime emergency that requires military assistance.

## **OPERATIONS**

The 151st Services Flight met its annual home station training requirements by creating and implementing a new and challenging unit-training plan. This plan calls for unit members to train in their assigned areas continually throughout the year instead of one time a year as in the past. In addition to members training in their assigned areas, they accomplish ancillary training such as chemical warfare training and weapons qualification.

During FY 2003, the 151st Services Flight received several significant mission taskings. In January, members were tasked to support an AEF rotation. In February, members received an activation and deployment order for the support of Operation Iraqi Freedom.

During FY 2003, the 151st Services Flight had the opportunity to provide support to all units on the Utah ANG base at one time or another. Included in the base support this past year, Services Flight members provided food services and lodging for several base tenant units during their annual training at Wendover, Utah. Services Flight also provided food service support for the annual Utah National Guard Freedom Academy during August. This activity was fun for our unit members and we are proud to support them. During the past year, the food service section provided over 17,000 meals to Air National Guard members. The billeting section realized an annual savings of \$20,000 to the ANG through its efficient utilization of the on-base billeting facility and off-base contract quarters.
