

71 RESCUE GENERATION SQUADRON

MISSION

The 71 Rescue Generation Squadron is responsible for the planning and execution of preventive scheduled and unscheduled maintenance while inspecting, servicing, and generating mission-ready HC-130J Combat King II aircraft. Additionally, the 71 RGS rapidly generates, mobilizes, deploys and employ forces to provide combat and peacetime search and rescue operations in support of U.S. national security interests, often working alongside sister services and international partners.
